

The keys are yours. Start small.

A short starting point for your first weeks at home. Keep this with your inspection report.

☐ **Keep your inspection follow-up list nearby.**

Prioritize unresolved repairs before routine maintenance.

☐ **Locate the water shutoff and electrical panel.**

Ask a qualified professional about anything unfamiliar.

☐ **Check smoke alarms and read their instructions.**

Record their manufacture dates and plan monthly tests.

☐ **Write down your HVAC filter details.**

Check its size, type, and manufacturer instructions. Plan monthly inspections.

☐ **Start an appliance record.**

Save model and serial numbers, manual links, receipts, and stated warranty dates.

☐ **Choose your next three maintenance tasks.**

Use your inspection findings, equipment manuals, and local conditions.
